

AMENDED No. 74094
APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER
OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF
NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office APR 03 2006

Returned to applicant for correction _____

Corrected application filed APR 07 2006

Map filed APR 07 2006

The applicant **Coyote Springs Investment, LLC** hereby makes application for permission to change the **Point of Diversion of a Portion** of water heretofore appropriated under **Permit 70429**

1. The source of water is **Underground**
2. The amount of water to be changed **1,000 Acre Feet Annually (AFA) – 2.0 CFS**
3. The water to be used for **Municipal & Domestic**
4. The water heretofore permitted for **Municipal & Domestic**
5. The water is to be diverted at the following point **SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 10, T13S, R63E, M.D.M., or at a point from which the NW corner of Section 21, T13S, R63E, M.D.M., bears S 55° 52' 30" W a distance of 10,030 feet.**
6. The existing permitted point of diversion is located within **The SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14, T13S, R 63E, M.D.M., or at a point from which the NW corner of Section 21, T13S, R63E, M.D.M., bears S 89° 13' 53" W a distance of 12,470 feet.**
7. Proposed place of use **No Change**
8. Existing place of use **See Attachment "A"**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works **Drilled well, pump, motor, meter, piping, electric power and distribution system.**
12. Estimated cost of works **\$500,000.00**
13. Estimated time required to construct works **One (1) Year**
14. Estimated time required to complete the application of water to beneficial use **Five (5) Years**

74094

15. Remarks: The annual consumptive use will be 1,000 AFA. The water will be used for municipal and domestic purposes, including, without limitation, residential, commercial, industrial, mining, golf course and landscape irrigation (until replaced by effluent), wildlife and habitat development. The water will be commingled with water produced under other permits.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 70429 is issued subject to the terms and conditions imposed in said Permit 70429 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A monitoring program, prepared in conjunction with the study ordered in State Engineer's Order No. 1169 shall be followed prior to the diversion of any water under permits 74094 and 74095.

The permittee is required to submit an annual report of the monitoring results. Upon review of the annual monitoring results, the State Engineer will retain the right to reduce the pumping from these wells or to take any action that may be necessary to protect the public interests or to prevent conflict with existing rights.

The total combined duty of water under Permits 70429, 70430, 74094 and 74095 shall not exceed 4600 acre-feet annually.

The well drilled under this permit shall produce water from the carbonate aquifer only.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second, but not to exceed a yearly duty of 1000 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

August 29, 2007

Proof of completion of work shall be filed on or before:

September 29, 2007

Water must be placed to beneficial use on or before:

August 29, 2010

Proof of the application of water to beneficial use shall be filed on or before:

September 29, 2010

Map in support of proof of beneficial use shall be filed on or before:
